📍 La Colline, Stellenbosch

ABOUT ME

Results-driven and constantly seeking to grow, I am passionate about statistics, data management, and data analytics. I thrive on problem-solving and enjoy the challenge of working within interdependent teams that share the same goals and drive. I believe strongly in maintaining a healthy work-life balance without compromising on standards, and I bring full commitment to every role – whether managing or executing. My greatest strength lies in keeping expectations realistic while consistently exceeding those of others.

EDUCATION
